LIGHTNING KILLS CHARLESTON MAN

TWIN FALLS LOOKS FOR FEEDER ROAD

George Daybell, Prominent Rancher and Landowner, Victim of Bolt From Sky.

President of Western Pacific Favorably Impressed With Tract and Prospects.

SALT LAKE CITY, Aug. 4.—George Daybell, 61, a prominent rancher, was killed by lightning at his home here today. Mr. Daybell was standing in his "dressing" when the bolt struck him in the back of the neck, passing through his body, tearing his clothes and throwing them several feet from where he fell. His 10-year-old daughter, Inez, who was playing in the yard, was shocked and rendered unconscious. Parley McAfee, one of the city's leading physicians, was called to the scene. The lightning bolt fell in the yard, and the electric current followed the path of the lightning rod which followed shortly was insignificant.

Daybell was a pioneer resident of Salt Lake and possessed extensive interests in the town and through the country. He is survived by the widow and sons, Robert, Fred and George W., residents of this vicinity. Funeral services will be held from the residence Wednesday afternoon at 2 o'clock.

SALT LAKE CITY, Aug. 4.—Work on the city pipe line through Box Canyon has been going on steadily since spring, and the workmen will soon see the end of the big job. The new pipe line, which is built in the bottom of the canyon, where it is always covered by a deep stream of water, is being laid in a deep gulch, and is now being extended to the city reservoirs for use in the city. SALT LAKE CITY, Aug. 4.—At the meeting of the county commissioners today, a claim by the county for \$10,000 was rejected. Clapp Opposed to Race Segregation. WASHINGTON, Aug. 4.—Opposed to segregation of races in the postoffice department, Senator Clapp of Minnesota prepared today to insist that Postmaster General Burleson explain the grounds on which a department order providing for such a separation of the white and negro employees was in contemplation. The senator contends that the two races have worked together for a half century and he does not believe any greater need exists for their separation now than at any time in the past.

HOP PICKERS LEAVE FOR OTHER FIELDS

Six Companies of Militia Arrive at Wheatland; No Further Rioting Expected.

WHEATLAND, Cal., Aug. 4.—With six companies of militia camped in the school grounds and eight hop pickers' encampments on the Durst brothers' ranch reduced to a few hundred persons, there was little indication here tonight of the rioting which brought death yesterday evening to four men, among them District Attorney E. T. Maxwell.

Every train today carried out a full load of hop pickers from the force of over 2000 which yesterday occupied the huddle of tents, sacking shelters and even brush lean-tos which formed the harvesters' camp. Every hour saw the number dwindle as the workers were paid off and departed by train, wagon or foot. Only fifty pickers appeared for work this afternoon and the ranch owners and Adjutant General Forbes, personal representative of Governor Johnson on the scene, were not inclined to anticipate further trouble.

Rumors were rife about town today of various parties of Industrial Workers of the World, said to be marching to the scene. No foundation for these reports could be discovered and General Forbes said tonight the soldiers probably would be withdrawn tomorrow. The feature today was the total lack of ill feeling toward guardsmen displayed by the hop pickers. The Oroville and Chico companies arrived soon after daylight today and marched in once to the center of the pickers' camp. Not a hoot greeted them and officers of the command said today no indication of ill feeling was exhibited at any time. Soon after General Forbes and the four Sacramento companies rolled in on their special train and the militiamen were at once withdrawn to public ground to make camp.

Ralph Durst, one of the ranch owners, in his account of the situation tonight, said that the strikers had been misled by their leader. Of seven demands made Saturday, Durst said, he agreed to all but two—an advance in wages and the employment of extra men to pick the hop vines within easy reach of the pickers.

Durst asserts that the spokesman immediately went to the workers and told them that the company had refused their demands, saying nothing about the concessions made.

Trouble started late that afternoon. Six men arrested by the militia were taken to the Marysville jail tonight for safe keeping.

CONFIRMATION IS BLOCKED BY SMOOT

No Action Taken on Nomination of William C. Whaley to Be Collector of Customs.

SALT LAKE CITY, Aug. 4.—The nomination of William C. Whaley of Montana, to be collector of internal revenue for the district comprising Utah, Montana and Idaho, is sewed up in the senate committee on finance, Senator Smoot having asked that no action be taken on the nomination until a satisfactory explanation should be furnished of the cases which have been and are now pending against Whaley in the treasury department on account of alleged violations by a butter manufacturing company, of which he is an officer, of treasury regulations. It is alleged that Whaley's company has been fined for manufacturing and selling butter not conforming to the moisture requirements of the law, and that a similar case is now pending in the department which has not been settled. It is expected that if Whaley's nomination is confirmed the collector's office will be removed from Salt Lake City to Helena or Butte.

NICARAGUAN TREATY MATTER GOES OVER

Secretary Bryan Issues Statement Deferring Consideration Until the Regular Session.

WASHINGTON, Aug. 4.—Secretary Bryan today issued the following statement regarding the pending Nicaraguan treaty:

"The president has not changed his views as to the main features of the Nicaraguan treaty, an outline of which has been before the committee of the senate for consideration informally, but as the senate's time is occupied with the tariff and currency bills, further consideration of the treaty with Nicaragua, together with a treaty with the foreign relations committee, will be deferred until the regular session."

The decision of Secretary Bryan to delay further action on the proposed Nicaraguan treaty until next winter met with approval in senate circles today. Members of the foreign relations committee were satisfied to let the subject of public protectorate go under the regular session, when more deliberate action can be taken upon it.
